

## Door Strap Shipping Retainer

- **FAST**
- **STRONG**
- **SECURE**
- **UNIVERSAL**
- **DEPENDABLE**
- **ECONOMICAL**

### **Features:**

- ▶ Prevents rattling, damage or dismantling of unit during transport and handling.
- ▶ Maintains alignment of doors during transport and installation.
- ▶ Installs easily with just 1 or 2 staples.
- ▶ No need to screw into edge of jamb.

### **EASY Installation Instructions:**

1. Insert barrel fully into the bolt bore. (end of barrel will extend into strike bore acting as a dead bolt). **SEE FIGURE 1.**
2. Insert spacer between door and jamb. (Does not get removed until the unit is secured in rough opening, keeping perfect spacing between door and jamb). **SEE FIGURE 2.**
3. Pull strap tight and staple to backside of jamb. (No holes in door and jamb to be filled later, and no chance of cracking jamb by screwing into its edge). Use 2 staples for heavier doors. **SEE FIGURE 3.**

**Part #:** ABTR-DS  
(packaged 1,000 pcs/box)
