

ABTR-IBST Interior Door **BOTTOM STRAP**

Secures jamb and door when no sill is attached.
Recommend one staple on side of jamb and two into the door bottom

- Provides cost savings over all existing techniques or products.
- Helps maintain reveal around the door.
- Helps hold the door shut during shipping.
- Protects bottom corners and provides skid plate.
- Can be removed using conventional tools.
- Prevents chattering, protecting head joint integrity.
