

## ABTR-BSST45 Bottom Strap / Skid COMBO

The Bottom Strap/Skid Combo combines the features of the Bottom Strap and the Bottom Skid to secure the jamb and door when no sill is attached.

- Helps secure the door to the jamb, preventing chattering.
- Protects the jamb from damage during shipping and handling while providing a skid plate for easy sliding.
- Easy to apply with just a few staples.
- Sleek continuous design reduces chance of part being dislodged by rough floors, wire racks or rollers.
- A cost effective alternative to cardboard, corrugated plastic or wood strips.
- Gives the corner joints additional support.
- Can be removed using conventional tools.
